

THE SUSTAINABLE TRANSPORTATION CHALLENGE

Thank you for your interest in the Green Communities | Active & Safe Routes to School
SUSTAINABLE TRANSPORTATION CHALLENGE!

Enclosed you will find:

- Flyer with project ideas
- 2 posters
- Stickers
- **No Idling at School** registration form
- Evaluation form – Submit by Friday, November 3rd to be entered in a grand prize draw!

These materials are also available at our website at www.saferoutestoschool.ca.

If you would like more materials or ideas, please contact us. You can also share ideas with other high schools or challenge them in an event by visiting our blog at <http://springintospring.blogspot.com>.

Participating in the **SUSTAINABLE TRANSPORTATION CHALLENGE** is a perfect way to initiate awareness of transportation alternatives for high school students while increasing daily physical activity levels. It's a great way to focus on school and community transportation issues, and to begin discussions of the benefits of sustainable transportation on environmental and personal physical health.

Wishing you a fun, safe, and active school year!

The Active & Safe Routes to School Team
